Book Selection: “The Light Between Oceans”
by M. L. Stedman

After four harrowing years on the Western Front, Tom Sherbourne returns to Australia and takes a job as the lighthouse keeper on Janus Rock, nearly half a day’s journey from the coast. To this isolated island, where the supply boat comes once a season, Tom brings a young, bold, and loving wife, Isabel. Years later, after two miscarriages and one stillbirth, the grieving Isabel hears a baby’s cries on the wind. A boat has washed up onshore carrying a dead man and a living baby.

Tom, who keeps meticulous records and whose moral principles have withstood a horrific war, wants to report the man and infant immediately. But Isabel insists the baby is a “gift from God,” and against Tom’s judgment, they claim her as their own and name her Lucy. When she is two, Tom and Isabel return to the mainland and are reminded that there are other people in the world. Their choice has devastated one of them.

This book is being made into a movie and will be released September 2nd. If you are not able to attend, but would like to read the book and participate, please email me for the book report form.

McWilliams Campground

McWilliams Campground was originally constructed as two separate campgrounds, Dolomite and McWilliams. McWilliams was constructed in the 1930s as a Works Progress Administration project during the Great Depression.

McWilliams Campground is named for J.T. McWilliams, a surveyor who helped to found Las Vegas. Recognizing the value of Lee Canyon for recreation, he and his wife Lona donated 40 acres to the Forest Service for use as a public recreation area in 1936. Camp Pitman (now known as Camp Lee Canyon) was also built at that time. Clark County operated the campground until 1965.

Construction began in July 2013 and was completed in fall 2014.

- Sixty-eight (68) single-family sites with a picnic table, grill, fire ring, and utility table.
- Nine double-family sites with two picnic tables, a grill, a fire ring, and a utility table.
- Eight restrooms.
- Paved parking.
- Most sites and all restrooms are wheelchair-accessible.

There are five interpretive exhibits:

- Bats - People can learn more about this important mammal. The Spring Mountains are home to over 17 bat species.
- People of the Spring Mountains – This exhibit offers stories about people who recognized the value of the Spring Mountains for recreation and worked to provide these opportunities.
- History of the Forest Service in the Spring Mountains – The story of the Forest Service in the Spring Mountains began over a century ago.
- Unique Climate of the Spring Mountains – Visitors can view a working weather station.
- Write your own story at the campfire stories exhibit

Wildlife, Fisheries & Parks Department
Danny Bullets, Jr., Director

The Wildlife Department is waiting to start the Wildlife Water Catchment Improvement Grant we received from the BIA, we should be hiring a Tech, and hopefully we can get started soon.

For the last few month we have had a Trespasser cutting the boundary fence to cross over the Reservation in the North East corner, the same tracks were at three locations, so if you see any Vehicles out there call this Department or BIA Police.

We also had someone hike in from the north to the "horned gate" and take most of the horns, this maybe someone that has been on the Reservation before. If anyone has information on either of these Incidents please call this Department.

If you travel the back road you need to watch out for Flooding, Muddy Areas, and sandy area, make sure the you tell someone where you are going and what time you will be back, take a shovel, water, cell phone, some food and flash light, if you get stuck don't leave the Vehicle.

Hunting Season will be here soon, so the Wildlife Department is again doing the Non-Lead Ammo free give away and the Gut Ply Raffle. Non-Lead Ammo will be given to all Tribal hunters, so that we can do our part in keeping the California condor safe. The Gut Ply Raffle even if you use Non-Lead bullet you can still participate in this, all you need to do is bring in you deer kills Guts and go the gate at the housing yard, open the red box trailer put your Guts in the Freezer and make sure you put your name in the book provided along with your phone number, Arizona Game & Fish will come and get rid of the guts and get the names off the book for the drawing, when chosen you will be contacted.

REMINDER TO ALL HUNTERS – Moccasin Mountain from the horned gate to the tower will be closed for the last hunt December 8 – 31, 2016 this was the "Management Hunt Area" for the past two years. Any deer can be taken in all the other areas. (I.e. Farm Canyon, Moccasin Canyon, from the Farm to Blue Knoll, and anywhere else) any questions contacted the Wildlife Department.

Deseret Tortoise there has been two sighting one on the Pipe Springs Road and one on Arizona 389 if you see one call this Department as soon as you can, they don't belong in this area, it is believed that someone brought it here.

The Elder Committee is selling raffle tickets for one Deer permit to raise money for the committee, so if you hear of someone wanting a hunting permit point them to the Elder committee, because all of our hunts are full.

The Youth hunt is also coming up soon it will be October 21, 22, 23, 2016 at the Pavilion this will be the 3rd year, this will involve youth from all of the Southern Paiute Bands, it will involve camping out door for two nights, if anyone wants to get involved with this or have something cultural that they want to share with the youth, please contact the Wildlife Department, this will be voluntary we have no money to pay anyone to do this.

Any Questions you may have dealing with Wildlife please feel free to call me (643-8305), come see me at the office or Email at dbullettsjr@kaibabpaiute-nsn.gov .

Water Quality Division
Kaibab Band of Paiutes
Scott W. King
Water Quality Specialist

Hello Community members. I do hope you are having a fabulous summer. It has been a busy one for me here in the Water Quality division. First and foremost I had the great opportunity to host and sponsor a summer camp for four youth. Frank and Yvette Lopez, Matthew Spute and Dakota Bradley spent a week up in the Mendes Mountains near Prescott AZ.

This is a 4H camp dedicated to the teaching of our youth the value of protecting Mother Earth. The youth spent a few hours every day in a classroom setting learning skills that will help them throughout their lives. Then they took what they learned in the classroom out into the field to do observations, measurements and study of the effects of weather and outside influences on Water Quality in a nearby stream and pond. I am very impressed with all of the youth as they studied and used their new found skills in the field. And these were some long days. With activities starting at 9AM and often going until 8 or 9 at night. But it was not all hard work. There was swimming in the pond, s'mores to make, games, competitions and friendships to develop. Overall it was a great time for all. And I am pretty sure they learned something as well. I hope more will be able to attend next year as this is a great place to go and learn and have a great time.

Please remember the importance of water and do all you can to protect this priceless resource.

Seat Belt Safety

Buckle up, it may save your life

Traffic-related injuries are the leading cause of all injury deaths in America.

Every nine seconds, someone is injured in a traffic crash and every 13 minutes someone is killed.

Research shows that many part-time and non-belt users fear of a citation and significant fine outweighs their fear of being injured or killed when unbelted in a crash.

Every hour someone dies in America simply because they didn't buckle up. Failure to buckle up contributes to more fatalities than any other single traffic safety-related behavior.

Despite terrible traffic problems such as aggressive driving, increasing seat belt use is still the single most effective thing we can do to save lives and reduce injuries on America's roadways.

Saving Lives

Seat belts are the most effective safety devices in vehicles today, estimated to save 9,500 lives each year. Yet only 68 percent of the motor vehicle occupants are buckled. In 1996, more than 60 percent of the occupants killed in fatal crashes were unrestrained.

If 90 percent of Americans buckle up, we will prevent more than 5,500 deaths and 132,000 injuries annually.

Arizona – New Booster Seat Law in 2012

- [Arizona House Bill 2154](#) was signed by the Governor on May 9, 2012.
- According to the Governors Highway Safety Association ([GHSA](#)) the new law is effective August 20, 2012.
- The new law mandates [booster seats](#) for children who are at least 5 years old but younger than 8, and no taller than 4-foot-9 inches tall.

Arizona Car Seat Laws

- In the State of Arizona all children under the age of five (5) must be secured with a federally approved child safety seat or device.

TRIBAL COUNCIL MEMBER SAVALA VIEWS INFORMATION ONLY

From Manuel Savala, Council Member

A Short Synopsis from my View.

I have been chosen to this position for a term of one year, therefore my last year is this coming October.

I thank those community members who take the time and trouble to attend the monthly Tribal Council meetings. It is **sorry** that more of the community does not participate in these monthly meetings.

The Kaibab Band of Paiutes have been stagnant or frozen in time for some years now. The Tribal Council has not made any progress benefitting the communities or the reservation, to my dissatisfaction.

I Find:

That the Tribal Chairman and Tribal Council do not seem to work for the benefit of the wellbeing of the Kaibab Band of Paiutes.

The Chairman: Seems distant, wandering in his room, not asking for help or guidance from the Tribal Council on matters affecting Tribe's business.

The Tribal Council: Overseeing the operations of the tribal government, when it should be directing its focus on the business of enriching the lives of the community and reservation, by developing Economic Development Ventures, Securing Funding for Specific Projects, Securing the Rights to (Water, Land, Air) surrounding the reservation.

And, does not offer enough help to the Chairman in fulfilling his duties. An example being: hands on experience from past officers, that should be a priority.

I direct your attention to the monthly Tribal Council Agenda, the agenda does not offer items that affect the Tribe from outside entities. What I mean is, the Tribal Council does not go out of its way to solicit outside business(s), to find funding, project improvements for the community, or to better the communities on the reservation.

I would be glad to see the following projects on the move toward completion, if it's the desire of the entire Tribal Council. For the Chairman exercise.

Projects:

1. Acquisition of (4) playgrounds
2. Quantifying Tribal Water rights
3. Navajo Generating Station (Status on funding)
4. Land Acquisition (BLM) St. George
 - a. Through Congress as Las Vegas/Moapa has done
5. Land Acquisition (BLM) Kanab
 - a. Through Congress as Las Vegas/Moapa has done
6. Land Acquisition (BLM) Fredonia
 - a. Through Congress as Las Vegas/Moapa has done
7. Land Acquisition (BLM) South of Reservation , ref. (Rep. Grijalva)
 - a. Az. Strip into Nat. Monument
8. Kaibab Lumber Mill (90) acres
 - a. Economic development dreaming
9. Trust Status of Land
 - a. Transfer into Trust
10. Solar Project
 - a. Have plan, no prospects
11. Future of Thunder Pow Wow
 - a. Volunteers nonexistence
 - b. Cost to Tribal Government

Administration Projects:

1. What became of CED's
 - a. What was the Purpose
2. What became of the Range/Farm Audit
 - a. How long has this been on the works
3. Renovating all the Tobacco/Drug Abuse Billboards
4. Community Bulletin Boards need renovating

Note: This has been passed through Chairman, Tribal Administration and Tribal Council, through emails.

Fire Restrictions to be Rescinded in Washington, Iron, Beaver, Mohave, and Coconino Counties- Effective Saturday, August 13.

Due to recent rainfall and reduced fire danger conditions, Color Country Fire Managers are lifting all fire restrictions on tribal, federal (including National Park Service), state administered, and unincorporated private land in Washington, Iron, and Beaver counties. This also includes BLM administered land in Coconino and Mohave counties, and the Grand Canyon-Parashant National Monument. Lifted restrictions are effective at 12:01 a.m. on Saturday, August 13. No other fire restrictions on public or unincorporated land are currently in effect for southwest Utah or northwest Arizona. Visitors are now allowed to build campfires and use charcoal grills.

Fire managers want to thank the public for being aware of wildfire potential throughout the fire restriction period as human caused fires have been minimal for most of 2016. While fire restrictions are lifted, wildfire is always a risk. Caution should be exercised in using fire especially following periods of higher temperatures and/or winds as these conditions dry vegetation rapidly. Visitors are encouraged to use appropriate methods to contain fires, build them in areas free of vegetation, and to be certain that fires are completely extinguished after use.

Throughout the months of August-October, fire danger will remain a threat to southwest Utah communities and should be viewed as such until winter moisture is received. Therefore debris burning is not permitted. Please note that discharging, or using any kind of fireworks, tracer ammunition or other incendiary devices at any location on state and federal lands is always prohibited. For further fire restriction information please refer to the following web sites: http://www.utahfireinfo.gov/fire_restrictions/restrictions.html and <http://firerestrictions.us/az/>.
